Animation/Coding After-School Program

What is it?

Animation With Alice 3 (Grades 3-6)

Create amazing animations using code! Developed by Carnegie Mellon, Alice 3 is a fun way for kids to learn about both coding and animation. Students in this class will use Alice to create a short animation to share with friends and family. Alice uses drag and drop coding to help students learn the fundamentals, but more complex programming is possible once students have mastered the basics.

Fee: $100

When and where?

The Animation With Alice program will be held on **Wednesdays, October 25-November 29-3:30PM-5:30PM** at **Eden Christian Academy's Wexford campus**. (No Class November 22)

Students can remain after school for the program. Parents must pick up their child at the conclusion of the program.
